Denver, CO – March 16th, 2017 - Pet Releaf is proud to be growing at great strides and honored to be the leading CBD company in the pet industry!

Pet Releaf started 2016 with less than 50 retail partners across the US and today we are proud to say we are in well over **500 local pet shops in the US, Canada, and multiple countries around the world.** We have also happily kept our promise to partner only with locally focused partners – no big box stores and no big online marketplaces. We will always view our retailers as true partners – our Pet Releaf promise.

We are very excited to announce our **CBD Topical Cream, Canna Care**. It is produced with our **Organic CBD Hemp Oil** and is being showcased for the first time at Global Pet Expo. It is an anti-inflammatory product for dogs with **dry skin, insect bites, inflammation, skin irritations, and arthritis**. Our experts have specially formulated it with **100% plant based and pet safe ingredients** – no 12 syllable words or strange chemicals.

Available in 1 oz. & 4 oz.

Keep a look out for our other hemp based products that will be coming out this year...we can't wait for you to see what we have in the pipeline!

We are also happy to announce our joint venture in Colorado with the only **fully certified USDA organic hemp farm**. We have developed our very own proprietary Pet Releaf hemp strain! Come by booth **#878** to see video footage of our hemp plants in the green house!

We are **truly thankful** that you are all helping to spread the word about the amazing **Hemp Plant** and all of its benefits.

From Seed to Sale, from Plant to Pet, we are changing what healthy means for your pets.
