**Snappy Snoozers® will launch our Orthopedic Inflatable Pet Bed  
at Global Pet Expo 2017**

Snappy Snoozers® Pet Beds, from West Palm Beach, Florida will exhibit at Global Pet Expo 2017 for the very first time. This is very exciting news, as we will launch and demonstrate the Snappy Snoozers® pet bed. Snappy Snoozers® was designed for many purposes. It is an orthopedic inflatable mattress made with PVC. What makes this bed so unique, are the snaps along the sides of the mattress. The snaps allow you to easily attach and detach a quilt on top of the mattress. Snappy Snoozers® are designed to evenly distribute the air within the air chambers of the mattress; this purpose alleviates the pressure off the joints in older arthritic pets. Snappy Snoozers® was designed to make cleaning and sanitizing done in a snap. Snappy Snoozers® is ideal for pets that suffer from incontinence issues. This unique pet bed can be used indoors, outdoors, its waterproof and makes a great travel bed, especially, when it's packaging is a travel tote. Snappy Snoozers® is the pet's version of a Bed-In-A-Bag. It's an all-in-one and comes with a mattress, two replacement quilts, and an air pump packaged in a lovely travel tote.

Cleaning of pet beds has always been a challenge for pet owners. The

lengthy downtime without a pet bed, zippers that break in washing process, cushions that lose shape and size, encasings and sheets that are too small for the cushion after the washing process. Most beds will still smell bad because the cushion can't be washed, only the cover. This is what makes Snappy Snoozers® so unique! Have a soiled pet bed? Un-snap the quilt, wipe the mattress down with a sanitizing wipe and attach a clean quilt, it's clean in a snap! It's The Only pet bed you will ever need!

Snappy Snoozers® recently became a member of the APPA and we were awarded our trademark, thanks to Derek Fahey, Esq. at The Plus IP Firm in Fort Lauderdale, FL. Snappy Snoozers® will be showcasing our pet beds in the new products section at Global Pet Expo 2017.

"Exhibiting at the Global Pet Expo, is a dream that is about to come true!"
