

walkingpalm.com

Walking Palm is a dynamic pet product company that provides a range of natural products including bedding and toys for our furry friends. They are constantly seeking innovation to provide safe and affordable products that they know their customers and furry family members will love!

It all started with the caves. Their flagship product, the Cat Cave, provides a comfortable sleeping and playing burrow for cats and kittens of all sizes. Cats love the smell and feel of the all-natural wool. Each individual cat cave is made uniquely by hand to give your furry friend a personal enclosed place to retreat!

One of the many aspects that sets Walking Palm apart is their passion for rescue and shelters across the United States, as well as those animals in need within their walls. Walking Palm is driven to implement and support cat and dog rescue/adoption shelters as well as no-kill initiatives.

Their stated goal for 2017 is to raise greater awareness across the country for adoption and no kill initiatives such as TNR (trap-neuter-return) for feral/community cats and adoption availability for local shelters. This is accomplished through the donation of their products as well as mutual marketing with shelters and rescues.

Stop by their booth, 3908, to say hi and check out their products and vision!
