**New Mini Walkin' Wheels Pet Wheelchair  
Top Dog Wheelchair Company Offers New Size for Smallest Pets**

**AMHERST, NH** – Walkin' Pets by HandicappedPets.com announces the rollout of its latest innovation in the pet wheelchair business: the MINI Walkin' Wheels. This fully adjustable wheelchair comes in three Mini sizes to accommodate pets from two to ten pounds, including toy dog breeds as well as cats and other small animals. The Mini Walkin' Wheels is made of durable but lightweight aluminum, is easy to use, and its adjustability makes fitting quick and easy.

“My company was founded on the concept of listening to the pet caretaking community and providing products to enable their pets to live high-quality, active lives,” says Mark Robinson, founder and president of Walkin' Pets by HandicappedPets.com. “The toy dog breeds have increased in popularity over the years, and so a Mini wheelchair to accommodate these pets was an emerging need. We’ve also had an increase in owners of cats and other small animals ask for a wheelchair as awareness of the Walkin' Wheels has spread.”

The availability of an off-the-shelf, adjustable product, such as the Mini Walkin' Wheels, makes it possible to ship a wheelchair to an anxious pet caretaker on the same day that it is ordered. The adjustability of this product also enables owners to place an order with just two measurements and the pet’s weight and breed/species. This type of product has revolutionized the world of pet care, reducing the need to euthanize a pet.

The Mini Walkin' Wheels is being offered at an introductory price of \$179.00 and may be ordered [online \(www.walkinpets.com/mini\)](http://www.walkinpets.com/mini) or by phoning Customer Service: (888) 253-0777 M-F, 8AM-5PM EST.
