## Introducing Annamaet Original Senior Formula, The Optimum Food Choice to Address the Needs of Older Dogs

*Visit us at Global Pet Expo Booth #583.*

**Orlando, FL. (February 26, 2020)**—[Annamet Petfoods Inc.](http://AnnametPetfoods.com), the peak in pet nutrition, is excited to introduce **Annamaet Original Senior** to their line of science-backed, veterinary nutritionist formulated dog food, at Global Pet Expo 2020, booth #583.

The Annamaet Original Senior formula targets the specific needs of older dogs to maintain their physical and mental wellness with high-quality, natural ingredients that work.

This grain-inclusive formula, using millet, has a higher protein content that aids in the maintenance of lean body mass – with a lamb and fish base to optimize the amino acid profiles in older dogs. The Annamaet Original Senior formula also utilizes turmeric, one of the most potent natural anti-inflammatories, as well as medium chain triglycerides that serve as an alternate fuel source for the aging canine brain.

“It’s incredibly important for owners of senior dogs to be feeding them a nutritional formula with natural, powerful ingredients formulated specifically to address the needs of that age group, and our new Annamaet Original Senior formula is just that,” said Robert Downey, Founder and President of Annamaet Petfoods Inc. “We are proud and excited to be introducing this formula at Global Pet Expo 2020.”

Annamaet Original Senior comes in 5, 12, & 25 lb bags, retail starting at \$16.99.

## **Annamaet Petfoods Debuts New Supplement for Raw and Homemade Feeders: Annamaet Enhance**

*Visit us at Global Pet Expo Booth #583.*

Orlando, FL. (February 26, 2020)—[Annamaet Petfoods Inc.](#), the peak in pet nutrition, is pleased to debut **Annamaet Enhance**, a uniquely formulated vitamin and mineral supplement, at Global Pet Expo 2020, booth #583.

Designed with raw and home-prepared feeders in mind, Annamaet Enhance helps to balance your dog's unique diet, providing critical nutrients to help prevent the most common deficiencies. Annamaet Enhance's formula is veterinary nutritionist backed and formulated, and will assist in meeting the current requirements for any lean meat-based diet, or those with added vegetables, fruits, oils or grains.

Annamaet Enhance provides the necessary amounts of calcium, sodium, zinc, copper, choline, vitamin D, vitamin E and the B vitamins your dog needs—all provided in highly absorbable forms to ensure your dog stays vibrant and healthy.

"Since the beginning, Annamaet's top priority has been to provide the best nutrition for our dogs," said Robert

Downey, Founder and President of Annamaet Petfoods Inc. "As people continue to care more and more about their pets' nutrition, our job is to provide products, like Annamaet Enhance, that assist and boost their dog's diet."

Annamaet Enhance and your dog's diet plan should be discussed with your veterinarian to ensure its adequacy for your dog based on life stage and any health concerns. This product is designed for feeding adult dogs (9 months and older). The use of this product in pregnant dogs

and puppies is not recommended unless discussed with your veterinarian. Not intended for use as a human supplement nor is it designed to prevent or treat any disease.

Annamaet Enhance comes in an 8oz. cannister and retails for \$59.99.

To learn more about Annamaet Petfoods and Annamaet Enhance visit [www.annamaet.com](http://www.annamaet.com). For more information, media inquiries, hi-res images, or interview requests, please visit us at Global Pet Expo 2020, booth #583, or contact Kerry Sutherland at [kerry@ksutherlandpr.com](mailto:kerry@ksutherlandpr.com).
