Boss Dog Brands is the brainchild of Vasili Nassar, who founded the line of pet products for his dogs Kelby (Rhodesian Ridgeback), Toby (Miniature Yorkie) and a cat named Franky, "Delivering a complete and balanced raw diet with the added benefit of probiotics is what I needed for my pets. After Kelby refused to eat other products, I set out to create a raw diet with probiotics to help him with his gut issues. It worked. That's why I'm passionate about making our brand the go-to brand for digestive health support. Kelby's nutritional issues taught me to "treat my pet, like a boss."
