**TREATWORX DOG TREAT COMPANY TO SHOWCASE ITS NATURAL DOG TREAT LINE AT  
GLOBAL PET EXPO 2020 in Booth #3619**

**TORONTO, ON**

The Treatworx Dog Treat Company, from Toronto ON, will be showcasing its line up of natural dog treats for the US market at Global Pet Expo 2020. This line up was launched in Canada in 2018 and has seen solid growth and market penetration. Treatworx has partnered with Lambert Vet from Fairbury, NE, and wholesalepet.com from Richmond, VA to bring the products to the US specialty market, but we are actively looking for additional distributors and sales resources to further our ability to reach the consumers.

Treatworx was borne in late 2017, out of our desire to bring the best and simplest pet treat items that deliver on what you, the discerning consumer, are looking for. Treatworx sources our ingredients from the best suppliers, and we are constantly looking for even better options for your pets. We aim for simple ingredients that you can recognize and feel good about giving to your furry family members.

“We pride ourselves in bringing only the best products to market, made with the finest ingredients, and always without those ingredients your pets don’t need, such as grain, fillers, and artificial additives,” says Kenn Manzerolle, VP Sales & Marketing. “We wanted to follow up our 2019 brand launch, with a further showcase at Global Pet Expo as we have built up a solid game plan over the past year with securing a US warehouse, distributor partners, and retailer support and wanted to have these elements in place before trying to enter the US market.”

Give Treatworx products a try, you won’t be disappointed. **Come check out the line at Booth #3619**, and follow us on Facebook, Instagram (@Treatworx), Twitter (@Treatworx), LinkedIn or visit the website [www.treatworx.com](http://www.treatworx.com) for more product information.
