## **Walkin' Scooter: The Indoor Mobility Solution for Paralyzed Pets**

**AMHERST, NH (January 1, 2020)** – Walkin' Pets is proud to announce the Walkin' Scooter, the newest indoor mobility solution for paralyzed pets. The Walkin' Scooter allows paralyzed pets to easily maneuver indoors while protecting their limbs & chest from sores caused by scrapping. Keeping pets comfortable and active all day long! The Walkin' Scooter gives pet's back their freedom, allowing them to get back to what's important, being with their family. See the Walkin' Scooter in person in the Global Pet Expo 2020 New Product Showcase.

Designed for style and comfort, the base of the Walkin' Scooter is cushioned with a durable closed cell foam and it's easy to use! Simply attach the scooter bag to the base, place your pet inside, adjust for comfort and your dog is ready to go! Each scooter features roller ball casters for easy movement in any direction, sliding smoothly across tile floor, linoleum, Berber carpeting and hardwood floors! The Walkin' Scooter is the perfect solution for pets to fit through doorways and around corners with ease. The bright blue scooter bag is constructed of durable nylon which is perfect for pets with incontinence issues.

The Walkin' Scooter is perfect for every pet! With six sizes to choose from, the Walkin' Scooter can accommodate pets of all builds and breeds. Retail Price starting at \$179.

Visit Booth #3838 at the Global Pet Expo 2020 to learn more about the Walkin' Scooter and the other mobility solutions designed by Walkin' Pets by Handicappedpets.com.
